Proposal Rankings

1. Dufour

Team 17 has decided that professor Dufour's project proposal is our top choice. As a client, professor Dufour is familiar to the entire team, and as such there is already a strong rapport between us. Furthermore, professor Dufour's requirements are well written, concise, and clear. According to the chaos report, two of the top three factors that lead to successful projects are User involvement and Clear Statement of Requirements. We believe that Professor Dufour's proposal provides a good starting place in both these regards and we would be very excited to work with him.

2. Dhiman

3. Brink

4. Osrund
